1. The government of the United States is of a limited character, and it is confined to the exercise of powers expressly granted by the consti-tution, and such as may be necessary and proper for carrying the granted powers into full execu-tion; and that all powers not thus granted or necessarily implied are expressly reserved to the

States, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched

over as "the palladium of our liberties."
3. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of his Country, as announced in his Farewell Address, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign ground. That our mission as a republic is not to propagate our opinions, or impose on other coun-tries our form of government by artifice or force, but to teach by example, and show, by our suc-cess, moderation, and justice, the blessings of self-government and the advantages of free in-

stitutions.

4. That where the people make and control the government, they should obey its constitution, laws, and reaties, as they would retain their self-respect and the respect which they claim and will enforce from foreign powers.

5. Government should be conducted upon principles of the strictest economy, and revenue sufficient for the expenses thereof in time of peace.

ficient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimination, and protection from fraud by specific duties when practicable, whereby suitable encouragement may be assured to American industry, equally to all classes and to all portions of the 6. The constitution vests in Congress the power

6. The constitution vests in Congress the power to open and repair harbors, and remove obstructions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every instance, national and general in their character.
7. The federal and State governments are parts

of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitu-tional measures of each, are duties required by the plainest considerations of national, of State,

the plainest considerations of national, of State, and of individual welfare.

8. The series of acts of the 31st Congress commonly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of fur-ther legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will main-tain this settlement as essential to the nationality of the Whig party and the integrity of the Union

Warrants bought and soid. Warrants wanted. mar 24-1y THE LOST SENSES: DEAFNESS AND BLIND-NESS. By Dr. Kitto.

I NESS. By Dr. Kitto.

"This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been depitived of the sense of sight or hearing. Ever since his boyhead, for more than thirty years, Dr. Kitto has possed a life of great activity as a scholar, in a state of the most intense desfiness to which any living creature can be subjected. His account of binnsell, and of his discriminating remarks on the condition of the blind, (James Mitchell, laura Bridgeman, and others,) see repiete with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S PLANORPHERICAL QUARTS CRUSHING AND PULVERIMING MACHINES are now in daily operation for the
inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their
durability, the undoubted principles upon which they opecrack, their effective operation and result, are justly entitled
to the consideration of all parties engaged in grinding,
crushing, and Pulverizing Quartz, Iron fore, Zinc, Copper,
and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found espable of crushing and pulverizing into the finest powder any amount of Quarts or other
carthy matter, in proportion to the amount of weight or
power applied. The earthy matter is so completely ground
and pulverized, that the Gold may be easily separated, and
subjected to any process of smalgamation that may be ne-

subjected to any process or subsequence of the machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upowhich they operate precludes the possibility of their bein put out of order; nor do they heat any material while bein put out of order; nor do they heat any material while bein put out of order; nor do they heat any material while bein put or the first of the first of the first of the control of the most extensive operations in Californ and Australia.

They can be worked the size; and by changed power, according to their size; and by changed proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a tention of the proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulcering, herefolore affered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first street south of Peck Silb Ferry, every day, from 7 to 0 a. m., and from 4 to 6 p. m. For further particulars, apply to 32 Cliff street, New York.

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and disedsed in its columns, are Civil Engineering, Architecture, Rail-roads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Taxtile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Wafer, Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, First Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, First Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreiga. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly allehe valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE "1 copy, one year.........\$2 00 | 1 copy, six months.....\$1 00 | 10 copies, one year..........25 00 | 10 copies, six months..... \$4 00 | 10 copies, one year............25 00 | 10 copies, six months.... \$6 00 | Southern and Western Money, and Post Office Stamps, taken for subscription. Letters should be post-paid.

aug 31 KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HARVESTER

IS REFORE THE PUBLIC FOR THE FIRST TIME
T'S utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then leaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every farmer will
have it, and pays the manufacture 300 per cent.

E. WHEELER, Agent for Washington. E. WHEELER, A

Oress Reys, Washington Township, Canden Co., N. J., September 4, 1851.

We, the undersigned, do certify that we have seen Mr Revenuer's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

JAMES D. TIMBERMAN,
WILLIAM F. GANWOOD,
WH. C. NIGBOLSON,
JAMES B. COOK,
JAMES R. COOK,
JAMES R. COOK,
JAMES R. COOK,
CHARLES LEWIS,
TROMAS TUNNILESON,
PETER H. JONES.

LONG-A-COMING, October 7, 1851.

This is to cwilify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

The fillering policy and the property of the sixteen of the second of the second

We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield from 1½ to 3 bushels. Reducing it to a certainty of yielding but 1 bushel per acre, what will it cost to gather and thresh 1,000 acres?

This Harvester will gather 12 acres per day. At 6 acres per day, it will take 5 harvesters 26 days, at a cost of. \$150 threshing. 200 Incidental expenses. 160

Cost of harvesting, &c., 1,000 acres.

have found them to agree unanimously with the active calcalation.

Perhaps no invention offers greater inducements for a
profitable investment than the Harvester. For an enter
prising young man, of good business habits, a large sum of
money could without doubt be realized from the sale of
rights in the different States of the Union not yet dispose
of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better
or more money-paying business.

Those who wish to see a model of this celebrated farming
implement, and thesetisfactory manner in which it operates
can do so by calling at

E. WHEELER'S.

Opposite Brown's Hotel.

N. B.—The subscriber has purchased the right for Mont
gomery county, Maryland.

Hampton's Vegetable Tincture! ORAL TESTIMONY.

The Whole World, Attention! - Hear him, ye sick,

and do likewise!!

Baltinose, Feb. 9, 1852.

Messrs. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left ms. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumstism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully.

N. B.—I can be seen at any time at the Mayor's office. N. B.—I can be seen at any time at the Mayor's office.
G. D.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citizens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundrids who have felt its healing powers bear the same testi-

hundreds who have felt its healing powers bear the same testionory.

Baltimore, July 6, 1852.

Messets. Mortimer & Mowbray: Gents: Last September I was sattacked with crysipolas, from which a dreadful uleer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician toid me was bilious pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after laving tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottles, my cough and pains have energly left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Yours

Truth stranger than Fiction!-None need despair !-A Ludy's Testimony after thirty-eight years of suffering!

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Noartampron Co., April 18, 1852.

Mesers. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfit year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night: I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

ELIZABETH BAGWELL.

Yours, ELIZABETH BAGWELL. REV. VERNON ESKRIDGE, U. S. N. REV. VERNON ESKRIDGE, U. S. N.

FOREMOTTE, (Va.,) Aug. 18, 1851.

Mr. J. E. Bouch—Dear Sir: While I am in general opposed to Patent Medicines, candor compels ms to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizainess, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild HASIPTON'S Veteriable Involves, by its mind se-tion on the Stomach, Liver, and the Kidneys, will cure Dys-pepsis, Cough, Asthma, Bronebial and Lung Affections Pains in the Back, Side, and Breast; Consumption, Scrofula Rheumatism, Gout, Neuralgia, Fistula, Piles, Bowel Com-plaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine

J. A. C. IARDELLA,

PROFESSOR OF MUSIC,

RESPECTFULLY informs his pupils and the public that his season of instruction will terminate on Friday, the 5th inst., and that his duties will be resumed on the 10th of 5th inst., and that his duties will be resumed on the 10th of the inst., and that his duties will be resumed on the 10th of the season of the season action, and the season action on the metal; with the several actios, there was no action on the metal; with the several actios, there was very displace—a fact etal: with the seve metal; with the several actus, there was very signal—a fact sufficient to show that atmospheric influences would have no sensible effect. JOHN LECONTE, Prof. of Nat. Phil. et Chem. University of Ga., October 8, 1850.

University of Ga., October 8, 1850.

The Lightning Conductors of Mr. Spratt, effered to me, are well calculated to perform the office for which they are intended. Yours, truly,

Lexington, Kt., February 20, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Fatent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it qual, and I think superior, to any other rod ever offered for my inspection.

Avoidat. (G.) November 11, 1866.

equal, and I think superior, to any other rod over offered for my inspection.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Peints, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, te resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS,

Prof. Phys. Sc. Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which all buildings are liable.

R. SILIMAN, Jr.,

Prof. of Chem. in the University of Louisville.
